

ASSEMBLY INSTRUCTIONS

Thank you for your purchase. Please follow the instructions for correct assembly. While we took great effort to ensure these assembly instructions were correct at the time of printing, sometimes updates are required post production. For the most up to date versions please refer to the product page on our website. www.adairs.com.au www.adairs.co.nz

ASSEMBLY INSTRUCTIONS

Please follow the manufacturer's assembly instructions in detail to ensure the safety features of the cot are not compromised.

Ensure the cot is placed at a reasonable distance from curtains, blinds, heaters and power points. Keep all medications, string, elastic, small toys or small items, such as money, out of reach from any position in the cot.

Assembly

Care must be taken when attaching sides. Ensure all crews are 100% tight before use, but do not over tighten screws as this can cause damage to the cot. Once assembled lift furniture into place, do not drag.

Care and Maintenance

Regularly check all screws for tightness or damage that could render the cot unsafe. To clean, use a damp cloth, avoiding the use of detergents or abrasives.

RECOMMENDED MATTRESS SIZE

This cot has been manufactured for use with a mattress which measures 690 mm wide by 1300 mm long and 100 mm in thickness. The width and length are specified because it is important that gaps between the mattress and the sides and ends of the cot will not exceed 40mm when the mattress is pushed to one side or end, and 20 mm.

When the mattress is centered in the cot. This is to minimize the risk of a child's limb becoming caught in the gap. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500mm with the mattress base in the lower position to minimize the risk of a child climbing or falling out of the cot.

Mattress Position

WARNING: TO PREVENT FALLS, THE MATTRESS BASE OF THIS COT SHOULD BE ADJUSTED TO THE LOWEST POSITION BEFORE THE CHILD CAN SIT UP.
